ABOUT ME

Passionate Front-end Developer skilled in building responsive, user-friendly web applications using React.js and modern front-end technologies. Focused on optimizing web performance and delivering seamless user experiences. Continuously improving my skills while contributing effectively to team projects.

PROJECTS

1) Portfolio Website

Technologies: React.js, SCSS

Description: A personal portfolio showcasing projects, skills, and contact details with dynamic filtering, animations, and a responsive design.

Challenges Faced

- Ensuring full responsiveness.
- Optimizing animations for performance.
- Improving SEO for better visibility.

Key Features

- Responsive design.
- Dynamic project filtering.
- Contact form with email notifications.

Live Demo: [Portfolio Website](#)

2) E-Commerce Platform

Technologies: React.js, Redux, Firebase, SCSS

Description: A fully functional e-commerce website with product catalog, shopping cart, and user authentication.

Challenges Faced

- Managing global state with Redux.
- Integrating Firebase for user authentication.
- Real-time updates for cart and orders.

Key Features

- Firebase user authentication (sign up, login).
- Product filtering and sorting.
- Shopping cart (add/remove/update items).

Live Demo: [E-Commerce Platform](#)

3) Sakney - Expatriate Student Housing

Technologies: HTML, CSS, JavaScript, React.js

Description: A bilingual platform that helps expatriate students find housing by offering search, filtering, and account creation for a personalized experience.

Challenges Faced:

- Implementing a bilingual interface:** Ensuring proper right-to-left (RTL) and left-to-right (LTR) text alignment for Arabic and English users.
- Optimizing search functionality:** Handling multiple filtering criteria without affecting performance.
- Enhancing user experience:** Providing an intuitive UI with smooth navigation and clear property details.

EDUCATION

Bachelor's degree from the Faculty of Computers and Information

📍 **Shebin El-Kom, Menoufia University**

📅 2019 - 2023

📍 GPA: 2.89

SKILLS

Core Technologies:

HTML5

CSS3

JavaScript (ES6+)

OOP

TypeScript

React.js

Next.js

Redux.js

RESTful APIs

Styling & UI Frameworks:

SASS (SCSS)

Tailwind CSS

Bootstrap5

Material UI (MUI)

Swiper.js

Back-End Technologies:

Node.js

Express.js

MongoDB

Postman

Computer Science Fundamentals:

Algorithms

Data Structures

Design Patterns

Familiar With Programing languages:

Java

Python

C++

C#

Tools & Version Control:

Git & Github

Testing:

Jest (Unit Testing)

SOFT SKILLS

Analytical & Problem-Solving:

Critical Thinking

Problem-Solving

Adaptability

Collaboration & Communication:

Teamwork

Effective Communication

Active Listening

Time Management & Organization:

Task Prioritization

Time Management

Attention to Detail

Key Features:

- Fully bilingual (English Arabic) with seamless language switching.
- Advanced search and filtering for residential units.
- User account creation with personalized housing preferences.

Solutions Implemented:

- Used **i18next** library to manage translations efficiently.
- Optimized search using **Debouncing** to reduce redundant API calls.
- Improved UI with **React Router** for smooth page transitions.

Live Demo: [Sakney Website](#)

4) Single-Page Websites

Technologies: HTML, CSS, Bootstrap, JavaScript
Description: Developed multiple one-page websites with modern UI/UX designs and optimized performance across industries like e-commerce, gaming, and hospitality.

Challenges Faced	Key Features
<ul style="list-style-type: none">• Ensuring full responsiveness and visual appeal.• Optimizing performance and cross-browser compatibility.	<ul style="list-style-type: none">• Fully responsive design with interactive components.• SEO-friendly structure and optimization.
<p>Live Demos:</p> <ul style="list-style-type: none">• Chairs Shops Website• Barber Shop Website• Wave Café Website	<ul style="list-style-type: none">• Amin Games Website• Tralive Website• Game Warrior Website
