

Mahmoud Salah Elsebaey

Full Stack MERN Developer

Cairo, Egypt | mahmoud.elsebaey999@gmail.com | +20 120 7247 967 | Portfolio | GitHub

LinkedIn: <https://www.linkedin.com/in/mahmoudelsebaey999/>

Professional Summary

Full Stack MERN Developer experienced in building scalable web applications using MongoDB, Express.js, React.js, and Node.js. Skilled in RESTful API development, JWT authentication, role-based authorization, MongoDB, React.js, Redux Toolkit, TypeScript, and responsive UI development. Experienced in deploying full-stack applications using Vercel and Railway, with a focus on clean architecture, reusable components, secure APIs, and maintainable code.

Experience

Freelance Full Stack MERN Developer 01/2026 – Present

- Delivered 5+ freelance full-stack projects and discussed requirements and solutions for 4+ additional projects with clients using MongoDB, Express.js, React.js, and Node.js.
- Resolved 10+ website issues for a client and improved application performance by 25%+ while developing RESTful APIs, authentication, CRUD functionality, and responsive interfaces.

Frontend Developer — Delta Devs 10/2025 – 01/2026

- Developed responsive and reusable interfaces using React.js, TypeScript, and Tailwind CSS while collaborating with the development team using Git and Agile workflows.
- Optimized frontend applications and resolved UI issues, achieving 25%+ performance improvements compared with previous implementations.

Full Stack Intern — National Telecommunication Institute (NTI) 07/2025 – 12/2025

- Completed intensive MEAN Stack training covering MongoDB, Express.js, Angular, and Node.js with hands-on full-stack application development.
- Developed RESTful APIs and integrated frontend applications with backend services using Angular, Express.js, and MongoDB, following Git, Postman, and Agile practices.

MERN Stack Trainee — SEF Academy 09/2022 – 07/2023

- Built multiple MERN applications using React.js, Node.js, Express.js, and MongoDB, developing RESTful APIs with authentication, authorization, and CRUD functionality while integrating frontend and backend services using Axios, Git, and Postman.

Frontend Development Trainee — ITI & Mahara-Tech 06/2022 – 09/2022

- Built responsive web applications using HTML5, CSS3, JavaScript, and React.js, developing reusable UI components while applying responsive design, accessibility, and cross-browser compatibility principles.

Projects

Bookora | Multi-Business Booking SaaS (MVP), React.js, TypeScript, Node.js, Express.js, MongoDB 5/2026

- Built a white-label booking SaaS platform using React 19, TypeScript, Node.js, Express.js, and MongoDB with Arabic/English RTL/LTR support.
- Implemented 5-role RBAC with JWT and HTTP-only refresh cookies, booking availability, conflict protection, and create/cancel/reschedule workflows.
- Secured RESTful APIs with Zod, Helmet, rate limiting, and Cloudinary; added dashboards, analytics, reviews, and ratings.

Live Demo | *GitHub*

Electric Store | Full Stack MERN E-Commerce Platform, React.js, TypeScript, Node.js, Express.js, MongoDB 3/2026

- Built a full-stack e-commerce platform with React.js, Node.js, Express.js, MongoDB, and secure RESTful APIs.
- Implemented JWT authentication, refresh tokens, and 3-role RBAC (Admin, Owner, Customer) with product, user, category, and order management.
- Added cart, wishlist, reviews, search, filtering, Stripe/Paymob payments, Cloudinary, and Mongoose integration.

Delta News | Multilingual News & Sports Media SaaS, React.js, TypeScript, Node.js, Express.js, MongoDB, Tailwind CSS 8/2026

- Built a multilingual News & Sports Media SaaS using React, TypeScript, Node.js, Express.js, and MongoDB with Arabic RTL/English LTR support.
- Implemented article management, admin dashboard, RBAC, JWT authentication, Zod validation, rate limiting, and SEO optimization.

GitHub

ExamFlow | Multi-tenant Assessment SaaS (MVP), React.js, TypeScript, Node.js, Express.js, MongoDB, Tailwind CSS 7/2026

- Built a multi-tenant EdTech SaaS using React, TypeScript, Node.js, Express.js, and MongoDB with Arabic/English RTL support.
- Implemented 4-role RBAC, question banks, timed exams, grading, certificates, analytics, JWT authentication, tenant isolation, and Stripe billing.

Live Demo | GitHub

Portfolio Website, Next.js, TypeScript, Tailwind CSS, Framer Motion 6/2025

- Built a responsive portfolio using Next.js, TypeScript, and Tailwind CSS with reusable components, animations, and SEO optimization.
- Improved performance through image optimization, lazy loading, and server-side rendering.

Live Demo | GitHub

Technical Skills

Programming Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend: React.js, Next.js, Redux Toolkit, Context API, Tailwind CSS, Bootstrap, Material UI

Backend: Node.js, Express.js, RESTful APIs, JWT, Authentication, Authorization, Middleware, MVC Architecture

Database: MongoDB, Mongoose

Tools & Deployment: Git, GitHub, Postman, Vercel, Railway, Render, npm, Cloudinary

Concepts: CRUD Operations, API Integration, Responsive Design, State Management, Role-Based Access Control, REST API Development

Soft Skills: Problem Solving, Teamwork, Communication, Adaptability, Agile Focus, Time Management, Client Collaboration

Education

Menoufia University, Bachelor of Computer Science 09/2019 – 07/2023

- **Graduation Project:** Sakney — A bilingual housing platform developed using React.js with Arabic/English localization (Grade: Excellent).
- **Relevant Coursework:** Data Structures, Algorithms, Database Systems, Operating Systems, Computer Networks, Software Engineering.

Certifications

MEAN Stack Development Diploma — National Telecommunication Institute (NTI) Dec 2025

MERN Stack Web Development Program — SEF Academy Jul 2023

Frontend Development Program — ITI & Mahara-Tech Sep 2022

Languages

Arabic: Native **English:** Intermediate (B2)
